

## Pneumatic TestCenter - Houston TX

- ❖ Continuous dense phase conveying in a 10" (250mm) convey loop
- ❖ Dilute (lean) phase conveying
- ❖ Line force measurement
- ❖ Pellet cleaning

Our Houston TestCenter is a full scale test center dedicated to the analysis of high rate plastics conveying systems.

The Houston TestCenter features both continuous dense phase and dilute phase conveying. The TestCenter has the ability to demonstrate convey rates up to 50 tons/hr.

Additionally, we can compare performance of various pellet types and analyze streamer and fines formation.
