

MAC Baghouse Services provides Continuous Compliance Inspections (CCI), repair and on-going maintenance on baghouse and related dust collection equipment.

MAC Baghouse Services

Enjoy Peace of Mind.

Are you worried that it is costing too much time and money to perform your won inspections, repairs and maintenance? Have staff reductions hurt your ability to maintain your equipment?

Our experienced technicians can help evaluate the nature and scope of your problem and determine the most cost-effective options to meet your needs. All our technicians are MSHA certified, and have been trained to meet current standards for maintaining a completely safe work environment.

MAC's Baghouse Services Team has the expertise to ensure that your baghouse is leak free, mechanically correct, guaranteeing the results.

Benefits of MAC's Baghouse Services Program

- ▶ Extend life of bags
- ▶ Lower emissions
- ▶ Reduce downtime
- ▶ Reduce in-house maintenance costs
- ▶ Improve plant sanitation and employee satisfaction
- ▶ Minimize plant liability
- ▶ Reduce operational costs
- ▶ Reduce spare parts inventory

MAC Equipment has been developing and improving dust collection systems to meet regulations and enhance plant air quality since before the passage of the 1970 Clean Air Act. We have 40 years of experience and a large client base of Fortune 500 companies.

Leak Free. Mechanically Correct. Guaranteed.

Initial Analysis / Continuous Compliance Inspection:

We conduct analysis and inspections, both internal and external of the baghouse, fans and duct work.

Analysis

- Evaluate performance & airflow
- Review emissions
- Provide filter media recommendations

Inspection Program

- Quarterly/Annual
- Actual vs base-line performance
- Mechanical check-ups
- Comprehensive reports
- Punch List

Baghouse Repair & Upgrades:

Repairs

- Replace/upgrade filter bags, cartridges, cages, etc. to repair baghouse
- Bring baghouse to a mechanically correct and leak free condition
- Replace timers, solenoids, diaphragms and other parts
- Warranty the baghouse to be leak free

Upgrades

- Upgrade current system with more efficient technology
- Realize full potential of system

Ongoing / Periodic Scheduled Maintenance:

Schedules

- Monthly/quarterly/annual maintenance schedules are available
- Flexible to meet your needs, operation and schedule

Benefits of MAC's Baghouse Services Program

- Extend life of bags
- Lower emissions
- Reduce downtime
- Reduce in-house maintenance costs
- Improve plant sanitation and employee satisfaction
- Minimize plant liability
- Reduce operational costs
- Reduce spare parts inventory
